

28th International Submerged Lands Management Conference

2009 Webinar Series

Hosted by the Florida Department of Environmental Protection

Overview

The 28th annual International Submerged Lands Management Conference will be hosted by the Florida Department of Environmental Protection as a webinar series in the fall of 2009. The webinar series will consist of five 1-½ to 2-hour sessions, beginning in September and running every other week through November, 2009.

Audience

The webinar series will be free to all interested persons with Internet connection. In the past, coastal/natural resource managers, attorneys, consultants, academics and other professionals with particular expertise or experience related to some aspect of submerged lands, whether government, business, or the non-profit community have attended and presented at the conference.

Session Topics & Call for Abstracts

The sessions will address the following issues. Please contact the associated session coordinators if you would like additional information and/or are interested in presenting:

- **Marine Spatial Planning** – David Stein, dave.Stein@noaa.gov
- **Climate Change Adaptation** – Dorina Frizzera, dorina.Frizzera@dep.state.nj.us
- **Working Waterfronts** -- Dorina Frizzera, dorina.Frizzera@dep.state.nj.us
- **Offshore Energy** – Becky Pearson, bpearson@glc.org
- **Public Trust** -- Kelly Samek, kelly.samek@dep.state.fl.us
- **Evolution and Devolution of Water Dependence** – Jay Udelhoven, judelhoven@tnc.org

Conference Website:

A conference website, providing detailed session and registration information will be live soon and advertised widely.
