## Principles of Navigability Assessments

### Biography

Steve Ivey is the Aquatic Land Surveyor for the Washington Department of Natural Resources and is the agency's expert on aquatic land ownership issues. He has more than 22 years of experience in the land surveying profession and he is a licensed surveyor in three states.

### Presentation Abstract

Steve will be speaking about the general principles for navigability assessments of water bodies, the assertion of ownership to submerged lands by various states, and the unique elements for navigability and ownership in the State of Washington.
