

Agency information	Name	Frank Wallis
	Title	GIS Programming Unit Manager
	Agency	State of Alaska, Dept. of Natural Resources - Support Services Division - Information Resource Management
	Address	550 W 7th Ave. Suite 706 Anchorage, AK 99501
	Phone numbers	(907) 269-8847
	Agency web site	http://www.asgdc.alaska.gov/
	Role of agency in relation to marine boundaries, rights, interests, restrictions and responsibilities	
	Data Contributor	
	Does your state maintain a central repository of marine data or marine cadastral data?	
	No	
	Web address of statewide marine data or marine cadastral data repository	
	N/A	

	Marine Entity	Relevant in your state (Y/N)	In digital spatial form (Y/N)	In central repository (Y/N)	Authoritative Source responsible for creating and maintaining data	Known problems or limitations
Marine Cadastral Reference and Supporting Data	A cadastral reference entity is relevant in your state if it exists and/or is used for boundary description and delineation. A cadastral reference network specifies corners of common control. A cadastral reference grid is a cadastral reference network arranged in grid form.					
	Cadastral reference network	Y	Y	N	Federal - U.S. Dept of the Interior, BLM State - Alaska DNR	Incomplete, limited data availability for local governments
	Cadastral reference grid	Y	N	N		
	Shoreline – high water	Y	N	N		
	Shoreline – low water	Y	N	N		
	Salient shoreline points (Baseline)	Y	N	N		
	Coastal geodetic control points	Y	Y	N	Federal - NOAA, State - Alaska DNR	
	Coastal orthoimagery	Y	Y	Y	Geographic Information Network of Alaska (GINA)	Incomplete
	Bathymetry	Y	Y	Y	NOAA	
Marine Jurisdictional Boundaries - Lateral and Seaward	State boundaries	Y	Y	Y	Alaska DNR	
	County boundaries	N	N	N		
	Municipal boundaries	Y	Y	Y	Alaska DNR	
	Tribal boundaries	Y	Y	Y	Alaska DNR	

	Marine Entity	Relevant in your state (Y/N)	In digital spatial form (Y/N)	In central repository (Y/N)	Authoritative Source responsible for creating and maintaining data	Known problems or limitations
Tidelands and Submerged lands	All tidelands and submerged lands	Y	N	N		
	Tidelands (MHW to MLW)	Y	N	N		
	Submerged lands (MLW to 3 n.m.)	Y	N	N		
	* Some states have submerged lands or tidelands classes, for example, class 1 and class 2, filled vs. flowed, or intertidal vs. subtidal.					
Ownership of Tideland and Submerged Land Parcels or Tracts in Coastal Waters	Federally owned	Y	Y	Y	U.S. Dept of the Interior, BLM	
	State owned	Y	Y	Y	Alaska DNR	
	Local government owned	Y	Y	N		
	Tribe-owned	Y	Y	Y	U.S. Dept of the Interior, BLM	
	Privately owned parcels	Y	Y	N		Federal, state, and local government land disposals
	Deed restrictions, easements	Y	Y	N		

	Marine Entity	Relevant in your state (Y/N)	In digital spatial form (Y/N)	In central repository (Y/N)	Authoritative Source responsible for creating and maintaining data	Known problems or limitations
Marine Leases and Other Place-based Use Authorizations	Leases and other place-based use authorizations convey some exclusive right at a specified location or within a specified area. The activities listed below, as examples, are relevant in your state if they exist and require leases or other place-based use authorizations. Please customize this list for your state.					
	Oil or gas lease	Y	Y	N	Federal - U.S. Dept of the Interior, BLM State - Alaska DNR	
	Alternative energy	Y	N	N		
	Sand or gravel	Y	Y	N	Alaska DNR	
	Aquaculture	Y	Y	Y	Alaska DNR	
	Off-shore ports	N	N	N		
	Cables and pipelines	Y	Y	N		
	Dredge disposal	Y	N	N		
	Sea grass restoration	Y	N	N		
	Shellfish restoration	Y	N	N		
	Docks and piers	Y	N	N		
	Marinas	Y	Y	Y	NOAA	
	Shoreline stabilization	Y	N	N		
	Other shoreline structures (please specify)	Y	N	N		
	Non-water-dependent uses	Y	N	N		

	Marine Entity	Relevant in your state (Y/N)	In digital spatial form (Y/N)	In central repository (Y/N)	Authoritative Source responsible for creating and maintaining data	Known problems or limitations
Marine Managed Areas (for study, planning, protection, safety, regulation, and other purposes)	List MMAs appropriate for your state. Marine managed areas are diverse and may include regulated areas, navigation channels, fisheries management zones, marine sanctuaries, research reserves, national or state parks, wildlife refuges, lease blocks, disposal sites, no discharge areas, military restriction zones, speed or safety zones, native fishing rights, aquatic preserves, shellfish closure or growing areas, designated harbors and anchorage areas, pipeline and cable corridors, designated shipping lanes, and marine planning areas.
